Subject: VY1JA station

Date: November 26, 2019 at 1:56:15 PM PST

Please forward the attached list to anyone who might be interested. There is more which has not been listed...

The following is being offered for sale.

1. Alpha 9500, excellent operating condition. New final tube installed, and latest updates installed at Alpha, two years ago, and this year the two vacuum TR relays were replaced and Main Controller Board refurbished, making the amplifier like new. This is the amplifier with which won the 2019ARRL SS CW first place for Canada. It was bench tested to over 3100W PEP output on SSB. It was used in a remote station stack and has a few scratches on the top of its case only. With all original packaging and manual.
2. Ameritron AL-80A, Excellent working condition. 750W
3. Spare 3-500Z tube for AL-80, unused but in open box
4. Dentron MT-2000A manual high-power tuner. Excellent operating condition. Used with the above amplifier on all bands 160-10.
5. Gem Quad, on 70 ft fold over tower with all guylines. Older antenna, with some fibreglass repairs. Works well, 4 el on 20,17, 15, and 10M, but only 12M has only 2 elements because adding the extra directors was found to degrade 10 meter performance. Was used with separate feedlines to a common MFJ remote antenna switching box mounted on the boom. Currently tuned for best performance on CW. As is, where is
6. MFJ six band remote boom mounted antenna relay box and controller Used with above, Works perfectly.
7. MicroHAM MK II Keyer Digi modem, and rig interface, Excellent condition, latest updates.
8. Interface cables for above FT-920, Omni-7, and FT-990
9. Kenwood PS-53 analog power supply. Excellent condition

10. Swan PS-30 Power supply. Older but works well.
11. MFJ -108B Dual LCD Clock UTC and Local time
12. 2, 3-500Z used tubes, in factory open cartons unknown condition. As Is.
13. Box with 4, 4-400 tubes, unknown condition with some chimney and other parts.
14. MFJ 411 Pocket Morse Tutor (heavily scratched but works)
15. Hitachi V-680, 60 MHz Dual trace Oscilloscope perfect working condition.
16. MFJ Graphical Antenna Analyzer, 1-180MHz Excellent,
17. 100 Meters of 50 Ohm, 7/8 inch heliax Big and bulky will be difficult to ship. Approximately 5 feet diameter by 1 foot coil of cable.
18. TenTec 1210 2 Meter transceiver ... un-used
19. TenTec 1208 6 meter Transverter ... un-used
20. TE Systems 1452G high power 2 meter amp
21. Mirage 1015 6 meter 150W amplifier
22. Amidon Weatherproof W2FMI- 4:1 HBM 200 2kW balun.
23. DX Eng BAL-600-H10A WP 600 ohm -50 ohm balun 10kW

The following items are for repair or parts (Offers?)

1. Tec Omni-7 Receives but will not transmit. It is acting like it has an open circuit between the known good final and the antenna jack .
(in the filter board or antenna tuner)
2. FT920 Transmits but will not receive.
3. FT990 Will not transmit on CW
4. HFT-1500 manual tuner missing roller inductor and balun
5. RAT PAK relay box needs repair, with good controller box
6. MFJ 1700C Antenna Transfer Switch. Missing two coax connectors
7. ½ reel (250ft??) Amphenol RG11/U New
8. SBE33 classic rig... needs repair
9. EICO 753 classic rig... needs repair
10. Marconi BH100 Solid state 1000W amplifier with power supply
Needs repair. This is a rack mount heavy duty unit.
11. 3, Fisher P1000 2-tube 400Z rack mount amp chassis. Needs RF parts
12. 2, Power supply units for above
13. 6ft rack for above
14. Miscellaneous relay Racks
15. Misc. lengths of 50 and 70 ohm coax of various types
16. Misc. Spare electronics parts of all types
